Tickettorideeurope players:
Quick reminder about stations, as we get a lot of false bug reports about it :
Stations will only work if there is an opponent route to use ! It won't work if the route is empty.

So please write reports only if you're 100% sure about it (and so far no real bug reports on stations, so I'm pretty confident it works well).

Kaladry @answer 42, if you're talking about table 475397566 then it looks like you did not have two matching cards to play your second train station. The first station costs one card, the second costs two matching cards and the third costs three matching cards.

caiopsoares Hello!

Just a feedback: here and in "Your games in progress" page, the image is the same of classic TTR.
